MAY FAVOR MR. WHITNEY.

PROBABLE ACTION OF THE DEMOCRATS AT SARATOGA.

THE EX-SECRETARY WILLING TO ACCEPT THE NOMINATION AT CHICAGO ON A "STRAD-DLE" PLAFFORM-SENATOR HILL'S

COMING ECLIPSE.

[FROM THE REGULAR CORRESPONDENT OF THE TRIBUNE.] Albany, May 17 .- Eminent Democrats of Albany who attended the recent meeting of the Democratic State Committee in New-York, returned here with the belief that the Democratic State Convention, when it meets at Saratoga in the latter part of June, will elect delegates to the National Democratic Convention favoring the nomination of William C. Whitney for President. Mr. Whitney, they declare, while saying he is not a candidate, will desire the nomination at Chicago if a straddle upon the silver question is put into the Democratic platform. A direct declaration for the gold standard he would not favor; it would alienate Southern votes, in his opinion. Nor would he accept a nomination upon a platform calling for free coinage of silver, for that at the start would doom the Democratic party and its candidate to defeat. A double-faced declaration on the silver question would just suit him, enabling him to run as a gold-standard man in the Eastern States and as a friend to silver in the

"SOUND-MONEY" ACTIVITY EXPLAINED.

Mr. Whitney's supporters fear, of course, that the silver men will have such a majority in the Democratic National Convention that he would not care to have the nomination on a platform framed by them, and this is the meaning of the sudden activity of many "sound-money" Democrats like Don M. Dickinson. It is an activity intended to lessen the number of votes in the convention controllable by the free-silver Democrats. Mr. Dickinson has succeeded in capturing the Michigan delegation, and strong efforts are now to be made to win over some of the border Southern States like Kentucky, West Virginia and Virginia. But the rush of the Southern Democrats into the silver camp continues day after day, and the outlook is dark to the Whitney men. Yet they think they can roll up a respectable "straddle vote" in the Eastern, Middle, border and Northwestern States, and possibly then nominate Mr. Whitney.

month ago Senator Edward Murphy, jr. who for several years, with Richard Croker and William F. Sheehan, has controlled the organization of the Democratic party in this State, fawored a Democratic National platform with a decided tinge of silver. Mr. Murphy is an opportunist. Associating with the Democratic Senators from the South, he thought that he saw the entire country swinging over to the policy of permitting the free coinage of silver, and that there-York Democrats ought in their plat form to show their friendliness to silver. This view naturally shocked a good many Democratic business men, and alarmed such of the members of the Democratic machine as had the shrewdness to see that a platform of that kind would almost annihilate the Democratic party in this

MURPHY STILL LEANS TO SILVER.

Mr. Murphy, up to the last accounts, had not been convinced that his policy of "friendliness to silver" would be an unfortunate one for his party in this State, but he has been a very sick man for some time at Fort Monroe, Va., and therefore unable to give expression to his opinions. In the mean time Mr. Whitney's supporters think they have succeeded in committing the Democrats of this State to the adoption of a "soundmoney" platform at the Saratoga Convention. Mr. Murphy is reported to be improving in health, however, and therefore may appear at Saratoga and make it a difficult matter for Mr. Whitney and his friends to carry out their plans.

It is said that the plan of sending a Whitney delegation to the Democratic National Convention is favored by Senator Hill, by Richard Croker, by Hugh McLaughlin and by most of the rural Democrats. It is, therefore, likely to be adopted, even if Senator Murphy should oppose it, of which there are no indications at present. The four delegates-at-large to the National Convention will, it is probable, be Senator Murphy, Senator Hill, Roswell P. Flower and Wilson S. Bissell. In case Senator Murphy should be too ill to go to Chicago, it may be that Richard Croker will take his place. Nor le it at all certain that David B. Hill will keep to his present mind of attending the Convention. He and Senator Murphy do not agree well at present, and therefore he ould not care especially to be a delegate to the National Convention with him. Besides that National Convention threatens to lead the Democratic party up to the worst defeat it has suffered since 1864, by committing the party to the free coinage of silver, and therefore Mr. Hill is not eager to attend it.

NO HOPE IN NATIONAL AFFAIRS.

The Democratic party in this State is only concerned about the office of Governor and of United States Senator, foreseeing defeat on National issues. Whatever conflict there may be within the ranks of the Democratic party is therefore far more likely to occur at the State Convention in the fall than at that which will be held in June at Saratoga.

Ex-Congressman Perry Belmont is at present Ez-Congressman Perry Belmont is at present the leading candidate for the nomination for Governor. He has money and the party is poor. Some rich man must be nominated for the sake of securing campaign funds, At least, that is the notion of Edward Murphy, jr., Richard Croker, William F. Sheehan, Hugh McLaughlin and other magnates of the party. Senator Hill has been quoted as favoring the nomination of Mr. Belmont for Governor, but, if so, his support is not enthusiastic. His actual candidate is John B. Stanchfield, his former law partner. Mr. Hill would have a "poor man's campaign," although Mr. Stanchfield cannot be classed as a "poor man." But he is poor compared with the millionaire Belmont.

HILL'S HOPELESS CANDIDACY.

Mr. Hill, of course, is a candidate for re-elec-tion as United States Senator. But he has little hope of being elected. With such a large ty-two votes, it will be almost impossible for Democratic party to make sufficient gains in the State Assembly, under the present appor-tionment of seats in that body, to elect a United States Senator. There are now 47 Demo-cratic and 103 Republican members of the Assembly. The Democrats are compelled to clear again of forty seats in the Assembly, in

order to win the Senatorship. With 87 Assemblymen and 14 Senators they would have 101 votes, against the votes of 36 Republican Senators and 63 Republican Assemblymen, or 90 votes in opposition in all. The Democrats may make some gains in the countles of New-York, Kings, Albany, Onondaga, Monroe and Erie, but only a political revolution will give them forty seats more in the Assembly. The revolution this year is in the other political direction. It is to be a Republican who is to succeed David B. Hill as United States Senator.

WESTCHESTER COUNTY.

A special meeting of the Westchester County Grand Army Association was held on Saturday evening in the City Court room, Manor Hall, for the purpose of electing a president in place of the late Henry S. Sproull and to make arrangements late Henry S. Sproull and to make arrangements for attending the State Encampment, which opens this week in Utica. George W. Robertson, vice-president, of Peckskill, was chosen president, and James H. Jenkins, of Mount Vernon vice-president in ex-Senator Robertson's place. Speeches were made by Past Department Commander John C. Shotts, Alderman Abram H. Tompkins, Edward J. Mitchell, William Riley, of this city; W. W. Ryder, of Sing Sing; James H. Jenkins, of Mount Vernon, and E. B. Long, of White Plains. The members of the association will leave for Utica at 10 o'clock this morning on a train that will stop here for them. The association indorsed Comrade John C. Shotts for National Commander, and he has the support of the Westchester County delegates.

The trial of the case of Adelia McNish agt, the Village of Peekskill will probably be called in the Supreme Court in White Plains to-day. It was called last Monday, but adjourned one week. The action was brought to recover damages for injuries alleged to have been received by Adelia McNish, the wife of Andrew McNish, a pumber, by falling in Hudson-ave, near Ringsoid-st. She believed that it was caused by the negligence of the village, so she sued for \$10,000. The village denied that the place where the accident occurred was a public side-walk, and denied its liability. The case was tried before Justice Barnard in White Plains in March, 1895. The jury gave a verdict of \$5,000 and costs for Mrs. McNish. The village appealed the case and the judgment of the lower court was reversed. Now the case proceeds to a new trial and the hearing will probably occupy several days. Mr. McNish also has an action on the calendar. A suit for \$10,000 damages against the village for the loss of his wife's services.

Reports have just reached here of a large fish slaughter on the Rolling Fork River, in which from 2,000 to 2,000 pounds of fish have been killed, some of them weighing thirty pounds. The death of the fish was caused by the pouring of slops in the river from the distillery, making the fish all drunk. While they were in this condition several men and boys sigged them.

THE IRON MOUNTAIN'S SPLIT.

From The Chattanooga Times.

A report has reached Johnson City, Tenn., of an immense opening on the top of Iron Mountain, near the Tennessee and North Carolina line, which is six feet wide and one and one-half miles long. It is thought to have been caused by the recent very hard rains in that vicinity. The ground became so saturated that it gave way, causing this mammoth crack. The story is reported by an eye-witness whose veracity is beyond question.
